

## To be considered for the status of wholesaler:

1. A person must have an established health and wellness oriented website or a physical store.
2. To receive a wholesale discount on one of our items, a customer must make a retail purchase of that item. We need to be sure you've used the product personally and liked it, before offering it for sale.

At this time we offer these products at 50% off the listed prices for wholesale order as well as 50% off actual shipping cost.

You must place a minimum order of **10 units** of the same kind/SKU. (We do NOT allow mixing of SKUs to meet the minimum.) And your total order (shipping not included) must be at least **\$600**.
